

Massage & Glow

What better time of year than summer to look relaxed and glowing, right? Now you can get both with the Silver Saddle Ranch Constellation Spa's mini-packages.

Enjoy a combination of a 25-minute Swedish massage targeting your tension areas—the neck, back and shoulders—followed by one of our body treatments. Our **body wrap** is a great way to detoxify your body or try a **nourishing body treatment** with a triple benefit for your skin—it hydrates, exfoliates and nourishes. Or, try an **Aquarius Salt Glow** that will leave your skin silky smooth.

For facial lovers, we offer a great package that includes a facial with your choice of eye treatment.

You can add on the lip treatment for just a few dollars more to get the full pampering package without spending any more time. If all you have is one hour to spare, this is a great choice.

Try a tan without the damaging effects of the sun with our solar bronzing. This treatment is like getting two services for the price of one. You will receive an exfoliation with marine salts, followed with an application of our bronzer that is rated second in the world of beauty. Then, top it all off with a wonderful spa pedicure where we pamper all of you, not just your feet.

Whatever you prefer, come in and we will take wonderful care of you. Call the Constellation Spa today at **760-373-0044** or schedule an appointment.
